PROFESSIONAL EXPERIENCE

SENIOR UX/UI DESIGNER & FRONT-END DEVELOPER

August 2022 – December 2023

HORIZON THERAPEUTICS – Remote

- Quickly and effectively create end-to-end experiences and enhancements using Adobe XD for both new and existing brand sites through high-fidelity wireframes/prototypes for Healthcare Providers (2+ designs), patients (9+ designs), and internal use (3+ designs).
- Implement and develop 9+ websites from self-created designs and 13+ websites from designs created by external agencies for desktop and responsive experiences on Crownpeak using HTML and CSS/SCSS.
- Author a variety of copy, assets, metadata/alt tags, and evidons for the complete development of over 22 websites with great attention to detail and efficiency.

SENIOR UX/UI DESIGNER

March 2020 – September 2020

ABBVIE– Remote

- Utilized core UX concepts to help the UI team better envision and enhance project milestones and improve overall efficiency.
- Created and delivered thorough UI style guides using HTML and CSS coding for the marketing team to author new sites effortlessly.
- Managed multiple creative agency relationships and trained agency designers on UI hand-off standards and best practices.

SENIOR UX DESIGNER

May 2016 - August 2019

MOTOROLA SOLUTIONS – Chicago, IL

- Conducted lean user research to effectively understand user needs and translate conceptual ideas (business needs and user goals) into intuitive and engaging experiences.
- Collaborated with business analysts, developers, and business teams to create friendly and intuitive experience for enterprise apps.
- Designed and developed unified customer experiences across MSI internal applications in an agile environment.
